With the near approach of Halloween night, which occurs October 30, small boys are beginning their nightly excursions about town in search of adventure. A number of householders have had their waking hours disturbed by the application of tick-tacks, but the actual damage thus far noted has been largely concerned with broken windows. A summer street man nabbed a couple of youngsters last night and would have escorted them to police headquarters had they not promised to amend their manner of passing the time away at night. Garden stuff has been let severely alone and there is nothing to indicate that the youth of the city are contemplating any unusual acts of mischief.

UNANIMOUS FOR REJECTION.

Representatives of the 13,000 Employees of General Electric Co.

Schenectady, N. Y., Oct. 19.—Representatives of the 13,000 employees of the General Electric company now on strike last night voted unanimously to reject the compromise offer made by George E. Emmons, general manager of the company. The works went on strike when their demand for an eight-hour day was refused by the company.

Mr. Emmons offered the employees a compromise which would have called for a five per cent increase in wages now, with a nine and a half hour day and another five per cent increase in one year and a nine-hour day.

The press committee of the employees announced last night that the individual union meetings had resulted in a vote of approximately ten to one to continue the strike to enforce their demand for an eight-hour day.

St. Johnsbury academy is to send its football eleven to Barre Saturday for a game with Spaulding high school at the Gospel Village campus. Spaulding stood off the Caledonia county schoolboys in St. Johnsbury a few weeks ago with a margin to spare, but fans are looking for a close game at the week-end. Unless there is a change in present plans, Goddard seminary will be represented at Northfield by its strongest eleven in a game with the Norwich university seconds.

Employees of the street department are engaged in assembling the stonecrusher in the north end, that essential piece of machinery having been transferred from Quarry street late last week. While the men are working on the stone crusher, others are operating the newly purchased scarifier, which is being used to dig up the highway just at present between Sixth street and Willey street. Much remains to be done in the way of highway improvement on the main thoroughfare in that section of the city and once the equipment is ready the street superintendent and his men will redouble their efforts to complete the work before the ground begins to freeze. City Engineer F. O. Lee is acting in an advisory capacity while the work is under way.

Rev. J. W. Barnett of Walnut street, pastor of the Barre Congregational church, will leave the city this evening for New Haven, Conn., where he is to set as one of the Vermont delegates at the meetings of the National Council of Congregational Churches, to be held from October 20 to October 27. A boy called at the office of Health Officer Dr. J. W. Stewart on West street yesterday afternoon and stated that he conversed with Adolfo F. Ferrari, the Granite street man who committed suicide by shooting in the woods in the woods to the east of North Main street, on the forenoon of Wednesday, October 6, a story which leads the authorities to believe that Ferrari, whose body was discovered Sunday afternoon, must have deferred the shooting for at least a day after his disappearance was noted. The young man, a countryman of Ferrari, told the health officer that he injured his eye on October 5 and is sure that he saw Ferrari on the day after the mishap. Men who were well acquainted with the dead man, including those who lived with him at his boardinghouse, expected that he would leave a note, but a careful search thus far has failed to disclose any post-mortem statement. Ferrari's funeral was held from the Perry & Noonan mortuary chapel on Depot square this afternoon.
